To Our Shareholders

2021 was a year in which your Company grew. Revenue was \$5,800 million, compared with \$4,170 million in 2020, and net income was \$280 million. Adjusted EBITDA was \$960 million.

Logistics contributed most to the year's result, with revenue up \$490 million. The balance of our portfolio is deliberate: when chemicals are weak, power and storage are usually not, and the port earns in both.

Among the year's milestones: comments on Greenland Mineral Resources Legislation; perttula Community Maintained Power Throughout Winter Storm.

We invested \$336 million in capital projects and returned \$122 million to shareholders in dividends, which we have now paid without interruption since 1989. Our first call on capital remains the integrity of the Perttula site: the levee, the jetties, the cell house and the caverns.

Our total recordable incident rate was 0.49. Nothing we report matters more than that number. We employed 10,400 people at year end, a great many of them in a town this Company laid out in 1919 and still serves with power, water and housing.

Thank you for your continued confidence in Isla Perttula Corporation.

Carolyn M. Strand
President and Chief Executive Officer

Review of Operations

Revenue by segment	2021	2020
Advanced Materials	1,410	980
Chemicals	1,830	1,440
Energy & Storage	930	620
Logistics	1,520	1,030
Corporate & Community	110	100
Total revenue	5,800	4,170

Advanced Materials

Advanced Materials separates mixed rare-earth concentrate into high-purity oxides at the Perttula Separation Facility and, since 2022, produces finished sintered magnets at Lakeline Magnetics. Concentrate is supplied from the Company's 51 percent interest in the Gamkarab project in southern Namibia and by third parties, and is discharged at the Port of Perttula. Segment revenue was 1,410 million.

Chemicals

Chemicals produces chlorine, caustic soda and ethylene dichloride at Perttula Works, drawing brine from the Perttula Dome and power and steam from Perttula Power Station, together with Gulf Crescent Chlorine at Lake Charles, Louisiana, barite through Sabine Barytes Company and oilfield chemicals through Borealis Oilfield Chemicals. Segment revenue was 1,830 million.

Energy & Storage

Energy & Storage comprises merchant power sales from Perttula Power Station, a 1,140-megawatt gas-fired cogeneration facility, and hydrocarbon storage in solution-mined caverns in the Perttula Dome. Segment revenue was 930 million.

Logistics

Logistics comprises the Port of Perttula, a private deepwater terminal on the 45-foot Perttula Ship Channel; Perttula Marine Towing; Cardwell Field; and Isla Perttula Air, Inc. Isla Perttula Air has operated continuously since 1947, when the Company's Aviation Department began scheduled service to Perttula Shoal. Segment revenue was 1,520 million.

Corporate & Community

Corporate & Community comprises Perttula Community Services LLC, Perttula Realty Holdings LLC and IPC Health Services LLC, which together provide electric, water, wastewater and solid waste service, housing and primary health care to the approximately 4,100 residents of our Perttula community. Segment revenue was 110 million.

Management's Discussion and Analysis

Results of Operations

Revenue of 5,800 million increased 1,630 million, or 39.1 percent, from 4,170 million in 2020. The change was driven principally by Logistics (+490 million) and Advanced Materials (+430 million). Adjusted EBITDA was 960 million, compared with 410 million in the prior year, and net income was 280 million, or \$1.65 per diluted share.

Depreciation and amortization was 360 million, reflecting the capital intensity of the Perttula site. Interest expense was 237 million on average total debt of 4,250 million. The effective tax rate was 23.0 percent.

Liquidity and Capital Resources

Cash provided by operating activities was 616 million. Capital expenditures of 336 million were directed principally to sustaining capital at Perttula Works, debottlenecking at the Perttula Separation Facility, and dock and channel maintenance at the Port of Perttula. The Company paid dividends of 122 million. At year end, cash and equivalents were 368 million and total debt was 4,250 million.

Critical Accounting Estimates

The Company's most significant estimates relate to asset retirement and environmental remediation obligations, the useful lives of long-lived assets, and the recoverability of capitalized development costs at mineral properties. Changes in regulatory requirements or in the expected timing of remediation could materially affect the recorded liability.

Notes to Consolidated Financial Statements

1. Basis of Presentation

The consolidated financial statements include the accounts of Isla Perttula Corporation and its majority-owned subsidiaries. Intercompany accounts and transactions have been eliminated. Amounts are stated in millions of United

States dollars unless otherwise noted, and may not sum due to rounding.

2. Segment Information

The Company manages its operations through five reportable segments. Substantially all long-lived assets are located in the United States, other than the Company's interest in the Gamkarab project in Namibia and its interest in the Qaqqaq project in Greenland.

3. Aircraft

At December 31, 2021, Isla Perttula Air operated the following aircraft:

Type	Owned	Leased	Total
Airbus A319	2	4	6
Airbus A320	-2	6	4
Airbus A220-100	4	0	4
Airbus A220-300	0	6	6
Airbus A330-200F	2	0	2
Airbus A340-500	2	0	2

The Company's two A340-500 aircraft remain in service on the Perttula–Gamkarab sector pending certification of certain specialized lower-deck equipment for successor types, and in view of pavement classification limits at the destination airfield.

4. Asset Retirement and Environmental Obligations

The Company records obligations for the retirement of long-lived assets and for environmental remediation where a liability is probable and reasonably estimable. The recorded obligation at year end was 310 million. Residues from rare-earth separation, which contain naturally occurring radioactive material, are managed at the South Shore Residue Management Area on the south shore of Company property at Perttula (former Portilla Beach tract; public access restricted since 2014), where the Company maintains 38 groundwater monitoring wells and reports results to state regulators.

5. Related Party Transactions

Perttula Community Services LLC, a wholly owned subsidiary, provides electric, water, wastewater and solid waste service to the City of Perttula and its residents under franchise, and provides payroll and information technology services to the City under a shared services agreement. Perttula Realty Holdings LLC leases residential property to employees of the Company and to other residents of the community. Amounts transacted with the City were not material to the consolidated financial statements.

6. Debt

Total debt at year end was 4,250 million, consisting principally of senior notes and a revolving credit facility. The Company was in compliance with all financial covenants.

7. Commitments and Contingencies

The Company is party to various legal proceedings arising in the ordinary course of business. In the opinion of management, the outcome of these matters will not have a material adverse effect on the consolidated financial position of the Company.

Selected Items from the Annual Report on Form 10-K

Item 2. Properties

The Company's principal operations are located on approximately 14,200 acres at Perttula, Matagorda County, Texas, including Perttula Works, the Perttula Separation Facility, Perttula Power Station, Perttula Dome Storage and the Port of Perttula. Cardwell Field, a private airport owned and operated by Cardwell Field Airport Company, a wholly owned subsidiary, serves the Company's aviation operations and has a primary runway of 11,200 feet. The Company also owns or leases approximately 1,020 residential units in the Perttula community through Perttula Realty Holdings LLC.

Item 1A. Risk Factors (summary)

- The Company's operations are concentrated at a single site on the Texas Gulf Coast and are exposed to hurricanes and storm surge.
- Demand and pricing for the Company's products are cyclical and outside its control.
- Rare-earth separation depends on concentrate supplied from a limited number of sources, including projects in Namibia and Greenland subject to foreign regulation.
- The Company's residue management activities are subject to extensive environmental and radiological regulation.
- The Company provides utilities, housing and health care to a community in which it is the principal employer and landowner, which exposes it to reputational and regulatory risk.
- Holders of Class B Common Stock control the election of three of nine directors.
